

Planer CE223X DUO

Light and powerful, allows planing and sanding works.

DUO

Exclusive novelty

Professional solutions

CE223X DUO

The DUO planer is a total new concept. Equipped with interchangeable tool holders for helicoidal blade and sanding roller.

Revolutionary, light and easy to use double hand planer. Easy to adapt to the wanted finishing, just changing the tool holder with helicoidal blade or sanding roller in few minutes.

Equipped from factory with a cutterholder for helicoidal blade allowing a perfect planing without marks, and with an abrasive roller for sanding several kind of materials: wood and its products, solid surface materials, synthetic materials, stripping paints on flat surfaces...

Adjustable rear shoe regarding the cutting line of the tool holder.

The tool holder with helicoidal blade provides a high quality planing without traces and less noise, thanks to the oblique cutting.

Its versatility makes it to be able to adapt to several kind of jobs just only changing the tool holder. Now, with the sanding roller, it is possible to plane doors or shelves without risk to splinter them.

Specially recommended for restoration works, the DUO CE223X sanding roller can be used to remove paint or varnish. If a nail is inside the wood, this is not an inconvenient because it will be sanded and levelled off with the rest of the surface.

The CE223X DUO can be adapted to several kind of surfaces thanks to its dual system.

There are several applications using the sanding roller. For example: sanding wooden repairing splines, planing panels made up with several layers of different materials, like insulating modules, repairing of surfboards, boats...

Optional

The CE223X can be also equipped easily with a cutter holder for straight reversible blades.

Standard equipment

Tool holder with helicoidal blade, abrasive roller holder with Gr. 40 roller, dust collection nozzle and carrying case.

Optional sanding rollers

- Optional sanding rollers:
- 2345510 Roller g. 40 Carborundum
- 2345511 Roller g. 50 Carborundum
- 2345512 Roller g. 60 Carborundum
- 2345514 Roller g. 60 (Zirconium Oxide)*

(*) for hard materials

Specifications

Input power	700 W
Cutting width	80 mm
Cutting depth	0-3 mm
Max. rabbeting depth	11 mm
No-load speed	16,500/min
Max. sanding depth	0-1 mm
Sanding roller width	81 mm
Weight	3.2 kgs

Range of professional planers

Equipped with powerful motors, the Virutex planers are well known for their efficiency and robustness. They are designed for hard demanding jobs and to work with a high precision and quality finishings.
